

## HEARD ON THE STREET

"How much beer do you drink today?" a temperance reformer asked a British worker who had a third that was apparently unquenchable. "Oh, a gallon, governor—perhaps two" was the reply. "Two gallons?" said the reformer. "Why I couldn't drink that much water." "Well, governor, said the working man, "it comes to that, neither could I."

From a schoolboy's essay on the racehorse quoted in the Daily Express (London): "The racehorse is a noble animal used very cruel by gentlemen. Horses are very bad places. None but wicked people know anything about races. The last Derby was won by Mr. Morris' Manx, a beautiful bay colt by Phalaris, rising four. The

colts was able to one another, and he won eight lengths. Good old Steve!"

Rufus was proudly sporting a new shirt when a friend asked: "How many yards did it take to make a shirt like that one, Rufus?" "Well, uh," replied Rufus, "it took two shirts like this one's same yard last night."

Old Lady: "If you really want to work—Farmer Gray wants a right hand man."

Wanderer: "Has my luck, I—The left hand!"

Mother: "Come, Freddie and kiss your Aunt Martha."

Freddie: "Why, ma I ain't done nothing!"

Dance Call of Yesterday.  
I shall be glad to see as many of you present as possible.  
Decision: (coming round the corner): "What are you putting that muzzle on your little brother for?"  
Tommy: "Oh I'm sending him for some candy."

The lady of the house was as odd as usual. "You seem abnormally healthy," she said, "you ought to be strong enough to look for your meals."

"That's true," replied Vivian, "but although you seem beautiful enough to be in the way, evidently you prefer the simple life."

"Oh, my story I spoke so harshly. Come in and have a nice warm dinner, sir."

Herb Ellis (at 11 a.m.): "I'd you know that with this musical instrument I can imitate any bird you can name?"  
She: "No, I didn't. Can you just imitate a homing pigeon?"

The customer complained of the cost of shaving. "Yes, but have you considered the extra labor involved, sir?" asked Frank Seaborn.  
"What extra labor snipped Perry Parish."

"How much are rooms here?"  
"Two dollars and three dollars a day, sir."

"What's the difference?"  
"The two dollar rooms are all taken."

Mother (at 7 o'clock in the evening): "Come Audrey, it is bedtime. All the little birds have gone to sleep in their little beds."

Audrey (at 5 o'clock next morning): "Come, Mamma, it is time to get up. All the little birds are up, and the mamma birds, too."

"There will be service this evening at the usual time," announced the preacher. "Our subject will be 'Casting Pearls Before Swine,' and

## ELECTRICITY IN YOUR HOME

Electricity has done wonders for the home. It has unshackled the housewife from drudgery and back-breaking toil. It has furnished her and the rest of the family every minute convenience and comforts—servants within the cost of the purse of every family.

Electricity equipped homes mean happier and more healthful homes. All the comforts and conveniences that electricity brings are yours through the great power transmission system of the Calgary Power Company.

## SPORT NOTES

GODFREY SHOULD WIN

LOW OUTSIDE CORNER  
DON'T FOOL ALEXANDER

New York. The ultimate in field combinations (from several points of view) has been arranged for the Phillips ball park, June 12, when Jimmy Cameron and George Godfrey, representing between them more than one pound of something, will meet in a ten round bout.

If it comes off, this should be one for the books, for two more evenly matched performers it would be impossible to find. Jimmy has been trained to push over his opponent, Godfrey told him all they have to do is consult the official having averages of the American League for the season of 1929.

Alexander is just getting himself. When he entered the major leagues he discovered that there was a great deal about baseball that he did not know before, rather a great deal about pitching. In the minor leagues all pitchers had pitched to Alexander in the same way, but in the American League they told him no set formulae. Even with the mean way in which they kept him crossed up all season long they could not make his bat, he remained among the leading hitters of the league.

Like Gene Tunney, this giant Philadelphia player beats an even piety life. He does not smoke, chew or drink. He never goes to the movies, he sleeps at least 9 hours each night. Asked whether he had no vice at all, Alexander replied:

"Yeah, a fast crocodile to my left."

That was this spring. Last year he had another vice—malaria. Now he has cured himself of that vice.

NEW YORK. N. Y. Another world championship fight seems certain to be added shortly to the long list of title clashes planned for New York's annual fight conventions in the ball park this summer.

The victory of Young Jack Thompson, negro climber, over Jackie Fields in a welterweight championship battle at Detroit sets the stage for the new champion and Jimmy McLaughlin, the seeking folk, to settle their private quarrel in one of the most attractive matches of the outdoor season. McLaughlin, who has been in the ring since 1924, is a native of Madison Square garden.

One week ago, and the Irish young man from Vancouver was in decision, although suffering from a broken hand during most of the contest.

CAN McLARIN DEFEAT THOMPSON

**Gum-Dipped**

for Extra Strength and Mileage

BENEATH the rugged safety tread of toughest rubber, Firestone tires have the strongest, most durable cord construction ever known. Layer upon layer of cords are scientifically twisted for greatest strength and elasticity—then dipped in pure rubber which protects every fibre against internal heat and friction. Gum-Dipping doubles flexing life and adds thousands of extra miles of dependable, trouble-free service. Only Firestone tires are Gum-Dipped—No other tire has its advantages. Because of this extra process, Firestone tires hold all world records for mileage and endurance.

#### BUSINESS JUDGEMENT VISION AND SENSE NEEDED

The Vulcan Advocate in discussing the present political contest says provincial elections are upon us. The next four years are immensurable, the most important and responsible in Alberta's history to date. It is in these four years that the constitution will be had for or against, the Natural Resources will be sold, the foundation that will bear fruit for good or ill, for succeeding generations. Probably at no time has a Provincial election been so much momentous. Every voter is conscious of the order that we may be represented by men of the most outstanding business judgment, vision and common sense.

Legislatures of all parties, the men who legislate in the next four years should be the best that Canada can produce. In any constituency, those who believe that the U. F. A. candidate is the man best qualified because of his ability and attainments to all in legislature, should support the U. F. A. man to the best of their ability.

There are, however, in almost every constituency, a great number who do not agree with the U. F. A. Government policies, who have found errors of judgment and weak men in legislation during the last few years. These voters, then, are betraying a trust, betraying the whole purpose of their franchise if they do not nominate and seek to elect a man representative of their beliefs.

Every follower of history knows that the best legislation is not made with an overwhelming one party government. There must be opposition; hence, constructive criticism constantly racing upon the party in power. It is responsible for a 50 per cent. one party power to function for general good as efficiently as a 60 per cent. government, with stiff opposition, would be in order to achieve the strongest administration in Dominion history.

The Natural Resources, there should be an effective opposition outside of government ranks. U. F. A. partisans, themselves most enthusiastic party workers, would be the last to dispute with any other man, his right to honest conviction.

It is therefore the serious duty of all voters, in all constituencies, who feel that they can choose a more capable man than the U. F. A. candidate, to get together and nominate such a man, support him, and encourage him, possibly elect him.

There seems little doubt, that the U. F. A. government will be returned to power, but it would be an unfortunate thing for the country if the farmer party or any other party were returned on any overwhelming basis.

The next three weeks will have much to do in determining the destiny of the province for the next four years and for many succeeding future years.

#### UNCLE SAM GETS LOWE TAPS NET RETALIATION

While the only way of proving the merits of a tariff policy, is by actual application, yet on the surface at least Mr. Dunning's new tariff is pleasing to many.

The heaviest crumblers sustain that the expected increase from Britain will not come in, and that one real effect of the change will be an increase on tariff on steel and on iron, which will mean an increase in cost of equipment in primary production. Mr. Dunning, however, believes emphatically that this is not true, and that the general result will be lessened costs.

The most satisfactory feature to the series of acute stage which have been without to Uncle Sam—ought to be the retention of the tariff of course.

The volume of British trade should be greatly strengthened, and this too, meets the desire of the general public. If British goods can enter Canada in greater volume, it increases Canada's independence of the vagaries of tariff fluctuations on the part of our neighbor to the south.

—High River Times

#### LIVE TOADS MAKE QUEER CARGO

Vancouver, under the protection of boxes of earth, stowed with holes through which snails poured water at regular intervals, 25 live toads formed a strange cargo arriving here today on the liner Express of Asia.

The toads described on the bills of lading as news, were shipped at Shanghai and are valued thus to Indianapolis for scientific purposes.

The reptiles stood the journey well.

#### ROOSEVELT FIELD, N. Y.

What was believed to be a world's record for group parachute jumping was set here Sunday when 25 men leaped and landed safely in the latter's training plane 2,200 feet above this field.

#### LET THEM ALL, COME

In Vancouver on July 1 they plan to stage the "coming race of the century," and then it will be known just who is the "fastest man."

Percy Williams will be there, and the Vancouver Exhibition Company officials, who are sponsoring the event so that funds will be raised to send British Columbia athletes to the Empire Games at Hamilton, will invite George Simpson, Frank Wyckoff and Eddie Tolan to compete against Williams, who is still the champion of the world in the United States. George Simpson is called the "fastest human" because he was credited with establishing a record of 2.2 seconds when aided by starting blocks that on the Pacific Coast. Wyckoff was also called negotiating the 100-yard dash in the same time when no starting blocks were used. Previous to the last Olympic Games for the world was assured that Wyckoff and other United States athletes had equalled records and were sure to win at Antwerp, but who was awakening against them.

He was, however, a very fast runner, and he was never called anything in his life but a champion. He has 60 acres of land in Alameda and 200 acres of some barley, and 50 acres of sugar beets. And now he would take a short rest, said the new arrival.

#### HOW HE BECAME MANAGER

The efficiency experts tell us we should never lose our heads, and get mad. Don Hawley lost his, and it's something better than that. He landed a pretty money job, and it's been getting sweeter all along. When Dan was catching for Mon, the club was owed by Little.

#### READ THE WANT ADS — IT WILL PAY YOU

#### SUGAR BEETS SOLVED PROBLEM FOR FARMER

A Belgian farmer named Castelle, familiar with sugar beets, planted a parcel of land and a small dwelling near Taber, two or three years ago. Later Castelle and his family were joined by a wife and wife, who became assistants. Six months ago the Belgian changed to a quarter section of good soil, unimproved, the previous year, a short distance north of Taber, erected a shack and the two men began operations to prepare a dwelling for all and having their effects hauled to the new farm.

The family followed, and early this spring were driving a ram shackle horse and buggy, obtained cheaply. Mr. and Mrs. Castelle and a little boy were in town, the wife and mother labored as a worker of ordinary means and stand the child comfortably and nicely clad. In reply to inquiries from the Belgian farmer stated he had finished his seedling. He has 60 acres seeded to wheat, 30 acres to oats, some barley, and 50 acres of sugar beets. And now he would take a short rest, said the new arrival.

#### Market Examiner

The efficiency experts tell us we should never lose our heads, and get mad. Don Hawley lost his, and it's something better than that. He landed a pretty money job, and it's been getting sweeter all along. When Dan was catching for Mon, the club was owed by Little.

Sammy Liechtenstein, Sammy lived for nothing but baseball. He'd have it served at three meals a day, and as a snack out of the ice box as before bed, if it were possible. Tappan Dan was the starting catcher for the team, and Tom Madden was the underdog. Dan had a great run of hitting one afternoon—a flock of homers, and a single drop in for spite. But the next day when he went to the clubhouse he found Madden's name posted on the bulletin board as the starter for the afternoon game. Was Dan peeved? Does a monkey get angry at the worst he finds instead of a "peanut butter"? Of course not. Dan just spread his wings and flew for Sammy Liechtenstein. He opened up with a flow of descriptive adjectives that no umpire has ever heard. No player could stand on the field long enough to tell an ump what Danny told Sammy. Lately couldn't slide in a premium. Finally, Hawley ran down and Sammy stepped up on the speaker's platform. "Just the man I've been looking for," shouted the Montreal owner. "A guy with real fight to run my ball club. You're needed to wheat, 30 acres to oats, some barley, and 50 acres of sugar beets. And now he would take a short rest, said the new arrival."

## ENCOURAGE THE BACON HOG DEVELOPMENT

The Minister of Agriculture of Quebec, in order to encourage the breeding of bacon hogs, has decided to offer new inducements to its bacon club and their members.

Beginning in March, 1936, no financial help will be given to clubs which keep or breed more than one hog. The Minister through the medium of the farmers' clubs will loan without interest (two-thirds of the purchase price of boars, on condition that they are at least three months old and are resold in advance at the same price to chosen members from amongst the best qualified and best situated.

The maximum loan for each animal shall not exceed \$100. The maximum of the loan to any one club, for all purposes, must not in any case exceed \$1200.

The purchase of young hogs not being recommended, it would be desirable that the farmers' clubs buy only those hogs sufficiently advanced in age to show their qualities and mature at the time of purchase, a thing practically impossible with the young animals. Thus, to encourage the purchase of the older animals, the Minister grants a bonus of \$100 for each boar over four months old at the time of purchase.

ROOKIES—DOING WELL  
The cry for new blood in the mail order has been answered with a vengeance this spring, one of the fine crop of youngsters to come up in years having responded to the call. One of the first, the first, is
